

Tree Sales Program

Our tree sales provide high quality, 2-3 gallon sized trees to individuals and groups in Lexington and central Kentucky. Customers are able to order with Trees Lexington from wholesale vendors at prices well below most retail. Trees are typically 1' - 6' in height upon arrival, depending on species.

Here's how it works:

- Work with Trees Lexington staff to select a minimum of 10 trees
- Once your order is submitted and confirmed, you'll receive an invoice and remit payment to Trees Lexington 14 days prior to the trees' arrival.
- Trees must be picked up from Trees Lexington at the agreed upon appointment time and place made several weeks in advance.
- Trees Lexington will prioritize orders for its own projects.

What's available?

Nursery stock changes from season to season. We begin reserving trees 8-12 weeks before delivery. Consider site conditions and begin researching what trees would best work for your planting project. The sooner we have your request, the better!

Listed are dozens of species we often plant or have at our giveaways, including some that are harder to find.

Species we love to plant:
